

DEAR MR. DAVID A. LARSON

OCTOBER 24, 2007

MY NAME IS MRS. BONNIE KELLERBY AND WHY I'M WRITING TO YOU IS ABOUT THE TRUTH OF HAVING AUDIO BI-DIRECTIONAL IMPLANTS IN MY MIDDLE EAR/S. PLEASE READ HOW IT HAPPENED TO ME IN MY LETTERS AND ALSO PLEASE READ THE OTHER LETTERS THAT I HAVE SENT TO DR. CHARLES JORGENSEN, TO DR. NICK BEGICH AND THE LETTER TO PROFESSOR KATHRYN KELLEY, BUT I CAN'T FIND HER YET. THE ONLY PERSON THAT HAS WROTE ME BACK ON THIS MATTER IS DR. NICK BEGICH AND I RECEIVED HIS LETTER ON OCTOBER 14<sup>TH</sup>. HIS LETTER WON'T REALLY HELP BECAUSE HE CAN'T GIVE OUT MEDICAL ADVICE AND THE ONLY STAFF AT EARTH PULSE IS HIMSELF AND A PART TIME CLERK. PLUS HE DOES A LOT OF LECTURES AND WRITES ABOUT IMPLANTS AND OTHER DISTURBING TECHNOLOGIES. IF YOU NEED TO REACH HIM HIS ADDRESS IS P.O. BOX 201393, ANCHORAGE, ALASKA 99520 OR INTERNET: [WWW.EARTHPULSE.COM](http://WWW.EARTHPULSE.COM). YOU WILL SEE OTHERS ALSO WHO I HAVE SENT MY LETTERS TO. I HATE TO WRITE THE SAME THINGS AGAIN TO YOU SINCE THE OTHER LETTERS SHOULD BE MORE THEN PLENTY TO READ AND TO DO THE EXPLAINING OF WHAT HAS HAPPENED TO ME! THAT IS WHY I HAVE SENT YOU SOME MONEY, TO HELP IN ALL THE TIME IT MAY TAKE YOU TO GO THROUGH ALL MY PAPER WORK AND THE LITERATURE I HAVE FOUND ON THE COMPUTER. BUT JUST LIKE I HAVE BEEN SAYING IN MY OTHER LETTERS, I AM NOT MAKING THIS UP! I AM A VICTIM AND TRULY I'M TRYING SO HARD TO FIND HELP! TO FIND DOCTORS THAT WILL BELIEVE ME. I LUCKILY HAVE JOHN, MY HUSBAND TRYING TO EXPLAIN WITH ME THAT THESE TYPES OF IMPLANTS ARE REAL TO THEM. THAT THESE ARE SOME TYPE OF RADIO-IMPLANT IN MY LEFT MIDDLE EAR. MAYBE BOTH EARS, I DON'T KNOW ?

MAY I ASK YOU A FEW QUESTIONS THAT COULD HELP ME TO GET THE IMPLANT OR IMPLANTS OUT THAT ARE IN MY MIDDLE EAR. WHEN I READ YOUR DOCUMENTS AND THAT YOU HAD A DOCTOR IN L. A. TAKE YOUR DEVICES OUT, I WAS WONDERING WHAT TYPE OF DOCTOR YOU HAD? PLUS HOW DID YOU EXPLAIN TO YOUR DOCTOR THESE DEVICES WERE IN YOUR BODY? I HAVE BEEN THROUGH SO MUCH WITH WHAT THESE CRIMINALS HAVE DONE AND ARE STILL DOING TO ME! WERE ANY OF THE DEVICES IN YOUR INNER EARS? THE REASON I ASK IS BECAUSE PROFESSOR KATHRYN KELLEY WRITES ABOUT THE RAAT IMPLANTS AND HOW THEY ARE USED BY HOBBYIST WITH SHORT-WAVE OR HAM RADIO OPERATORS. THAT THE FCC WOULD HAVE TO BE USED LIKE YOU'VE WROTE ALSO. YOUR DOCUMENTATION AND HERS WILL HELP ME EXPLAIN TO THE DOCTOR SO MUCH EASIER THE TRUTH OF WHAT HAS HAPPENED TO ME! SOMETHING ELSE THAT IS AMAZING THAT YOU WROTE ABOUT AND I HAVE THAT IS IN MY TWO PAGE LETTER TOO. THAT THESE CRIMINALS HAVE THE ABILITY TO SEND A HORRIBLE SMELL TO ME. YOU WROTE, WHAT IS MOST DISTURBING IS THE ABILITY TO USE THE DEVICES TO DELIVER TESTOSTERONE OR ANY OTHER PHARMACEUTICAL AGENT INTO THE BIOLOGICAL SYSTEM OF THE SUBJECT. I HOPE THERE IS OTHER INFORMATION IN THIS LETTER THAT SOUNDS RIGHT TO YOU OF WHAT THESE DEVICES CAN DO BETWEEN THESE CRIMINALS AND ME?! I HOPE MY TWO PAGE THAT I WROTE WILL HAVE SOME OF THE SAME THINGS IN THEM THAT MAY HAVE HAPPENED WITH YOU? WOULD IT BE POSSIBLE TO HAVE SOME TYPE OF DOCUMENTATION OF WHAT YOU HAVE GONE THROUGH AND SOME OF THE PICTURES OF YOUR EVIDENCE TO TAKE ALONG TO ANY DOCTOR I WILL BE SEEING? I WOULD VERY MUCH AND MORE THEN EVER APPRECIATE YOUR HELP IN THIS MATTER. LET ME KNOW THE COST TOO?

SINCERELY, MRS. BONNIE S. KELLERBY

Bonnie,

The 3.0T MRi series revealed contrast spots but nothing substantial. I have had devices surgically removed by Physicians only after the devices became infected and caused inflammation. That allowed medical personnel to locate them and their removal was due to medical necessity. I still have residual devices that have not been removed and I am still attempting to refine an MR or ultrasound protocol capable of better resolution to localize devices. I tell you this because I do not want you to get your hopes up and then be disappointed if your MR series does not successfully localize devices or foreign bodies. These devices developed by Mann and Loeb under government funding are completely non-ferrous and William Heetderks provided funding to Dr. Loeb and used John Rossiter in Toronto so they could perform double-blind studies to learn how to conceal these devices from clinical radiologists. They spent a lot of money and effort to develop devices that are "invisible" to radiology and they don't want you to be able to find them, so it will be difficult.

You need to do the 6 things I suggested now. You don't need to write a whole story. Just tell them that Defense/CIA personnel and contract personnel implanted biomedical devices in your person against your will and did so under Special Access Program powers. Tell them that they are using FCC airwaves to communicate with the devices and are physically mistreating you and causing injury. You do not need to go into a whole story about how bad the torture is. They already know. **BUT YOU DO NEED TO MAKE AN OFFICIAL COMPLAINT!** Don't wait any longer and don't let them deter you from being heard. Do not be silent about this! If you do not do these six things, you are letting them win by remaining a silent victim. Your complaints will generate oversight.

Here is the contacts again for your complaints:

1. Submit a complaint to the Inspector General of the Dept. of Defense. Tell them that Defense Research (DARPA) personnel are responsible for implanting these devices and have physically abused you with the technology they have developed. You can submit an online complaint at <http://www.dodig.osd.mil/HOTLINE/fwacompl.htm> or fax it in writing to 703-604-8567, or email it to [hotline@dodig.mil](mailto:hotline@dodig.mil)
2. Submit a complaint to the California State Medical Board. Dr. Gerald Loeb works at the Mann Foundation under DARPA funding and performs most all of the surreptitious (unlawful) surgical implantations for the NIH, CIA and DARPA. Submit a complaint to the medical board about him specifically. Dr. Loeb's medical license is #C50504 You can submit the complaint online at [http://www.medbd.ca.gov/consumer/complaint\\_info.html](http://www.medbd.ca.gov/consumer/complaint_info.html) or mail it to

Bonnie,

I am sorry to hear you are still having problems. If research personnel did this to you and are continuing to interact with implanted medical devices, it is a difficult situation to deal with.

Regarding medical help - The devices were developed specifically by the Alfred Mann Foundation, NIH and DARPA to avoid being detected by radiology. You will need to find an ENT, tell him you have chronic pain and convince the ENT that exploratory surgery is required. If you do try radiology, seek a 3.0T MRI and tell them you are wish to localize non-ferrous foreign bodies that were implanted as part of DARPA/NIH funded research efforts.

If you are angry about what they have done and want to make some noise about it, I would encourage a couple of things.

1. Submit a complaint to the Inspector General of the Dept. of Defense. Tell them that Defense Research (DARPA) personnel are responsible for implanting these devices and have physically abused you with the technology they have developed. You can submit an online complaint at <http://www.dodig.osd.mil/HOTLINE/fwacompl.htm> or fax it in writing to 703-604-8567, or email it to [hotline@dodig.mil](mailto:hotline@dodig.mil)

Submit a complaint to the medical board about him specifically. 4. Write the Los Angeles FBI (or your local FBI Office)  
[www.fbi.gov](http://www.fbi.gov)

5. Write a complaint to the FCC for allowing the Mann Foundation a special license which is used for interacting with medical devices implanted in target subjects - Write Chairman Kevin Martin, Inspector General Kent Nilsson, Commissioner Jon Adelstein and OET Julius Knapp directly and cite the "experimental license" awarded to the Mann Foundation in 2004. You can submit the complaint via email at [fccinfo@fcc.gov](mailto:fccinfo@fcc.gov) , the online form (use form 2000-F) at

**Subject:** Biomedical Implants

Bonnie,

You've contacted me a few times about the troubles you are experiencing with biomedical implants and I'm sorry I'm not able to respond every time. As I mentioned, these devices have been explicitly designed so that clinical medical personnel cannot localize or remove them. They are pretty much "invisible" when it comes to radiology and with William Heetderks in charge of radiology funding at the NIH, not much is likely to change. I think one of the best things you can do is the following:

1. Write the CIA Inspector General John Helgerson. Keep it very short and simple. No long detailed stories about how cruel they are, just that they placed biomedical devices without your consent and that they have physically mistreated you with the devices.
2. Same thing with the Dept. of Defense Inspector General.
3. Same thing with the new incoming Attorney General Eric Holder. KEEP IT SHORT, NOT TOO MANY Details!... just that you are an innocent American citizen and they placed biomedical devices without your consent and that they have physically mistreated you with the devices.

I know that they have done this to alot of people, mostly people within proximity of the universities where Bill Heetderks funds programs such as UC Irvine, USC, IIT, Virginia etc. Unless a radiology protocol is developed that will localize these devices, chances are the devices will likely remain implanted for the entire life of victims. At this point the only thing to hope for is that the incoming Obama Administration and the new Attorney General will administer some justice for the heinous criminal acts that have been committed against innocent Americans. Sorry for what you have endured. I wish I could be more help.

Bonnie,

As a general rule, the only Physicians with direct knowledge of the covert and secret use of these implantable devices are involved with the program, have national security clearances, and are bound to contractual obligation and non-disclosure. Additionally, they probably don't want to jeopardize their government funding by helping a victim. I'm working on some stuff, so stay in touch. Some things need to happen before victims are going to be able to receive proper medical treatment and if it happens at all, it will be some time after Obama is inaugurated.

Dear Dave Larson

It has been since March when you were giving me people and places to write to about my being implanted with these damn devices and excuse my cursing, but darn I know there has to be a doctor who knows of these devices and will know how to get these out of the ear organs. Since March I have been writing to many people and doing more research trying to find more proof about these devices. I have even looked up Eustachian canal (internal auditory canal), then Auditory pathways and then it led me to look up "Digital Volume Tomography: Radiologic Examinations of the Temporal Bone" and having this done does show implants distinctively. And I know it would with these devices!!!

One of the last persons I wrote to was Cheryl Welsh, which was last week and I sent her almost every letter that I have written trying to get help! The letter I had wrote to you was with them and a couple of our e-mails. Could this maybe be the reason why you have gotten back with me? The other person I have written to for the third time is Stephen G. Lisberger, Ph.D., Department of Physiology with the University of CA School of Medicine and how I found him was by looking up

"Computational and Theoretical Neuroscience: From Synapse to Circuitry:"

I know you know that I'm not lying about this, but do you know how extreme these types of devices are and what they do!? Dave, the devices give these people, these criminals all five of my senses, my thoughts and they know where I'm at at all times. (24/7) Plus I have to listen to them and try to go about acting as best as possible that I'll be helped. It is ridiculous how hard it is to get help. When I found John Gregory Lambros and Professor Kathryn Kelley's writings on these types of implants and other literature I really thought finally by having all this documentation it would help make it believable about my being a victim of these devices.

I did write to the M.B. of CA and gave them the truth of how I became a victim and I also sent them the literature on these devices and why the criminals would do this. But they don't care if I'm a victim! They just make it sound as if I'm blaming only Dr.

Gerald Loeb and will this fall within their jurisdiction? What? I even wrote to the President of the board, Dr. Richard D. Fantozzi twice and to Ms. Candis Cohen. I wrote to the FCC, to Inspector General Glenn Fine and Attorney General Muskasey. If you like I can send you everything that I've been writing, so you will see how much bagging I've been doing to get out of this torture.

These criminals knew how damn hard it would be to find help and they will keep harassing me hoping I will give up, since no one will help. There has to be a doctor some where that will know about these devices and can take them out!!

Have you had your doctor helping you to get the rest of your devices out? I sure hope you have had that done, so you fight for your rights of what they did to you. I'm praying for that to happen for me soon!!!

Thank You again for your help Dave

Sincerely, Mrs. Kellerby

If you do know of a doctor who might try to help me would you let me know what I could do?

This is my husbands e-mail address in case you need to talk to him about this.
