To Whom It May Concern:

This letter is for Steven Gammill as it relates to disability. The patient was seen in the office for an examination. Mr. Gammill was diagnosed with severe neuropathy in his feet and hands. This affects his ability to walk and use his hands as a normal person does. At this time, Mr. Gammill is not able to work due to his condition and the advanced stages of the neuropathy, especially in his feet and legs.

If you have any questions, please feel free to give our office a call.

Sincerely,

Dr. Noah Herbert
Clinic Director
