

Record of Bonnie Kellerby's letters . . .

This is the beginning of writing for help! First wrote three hand written letters. First to Robin Robinson, who is a Journalist and the narrator in the documentary ("22nd Century (World Wide Mind)") which aired on PBS in Feb. & then in Jan. of 2007. The other two were to Dr. Rodulfo Llinas and also to Dr. Philip Kennedy.

April 18, 2007 wrote my "True Account Letter" of how I know just about when I could have been illegally implanted with the electronic device/s in my inner ear/s. Plus who I believe that might be involved because of giving me some tell tale signs.

Truth is if I hadn't seen the documentary I just might have given up because of being to scared to look for help. So horrible to be thought of as a mentally disturbed person because of how hard it is to tell anyone you're implanted with these types of implants/devices.

May 25, 2007 wrote a second letter to be attached with my true account letter of how the device works between the perpetrators and me. Did send to 15 technology Co.'s in the Bay Area, one in L.V. with asking for their help. No Replies

These two letters I wrote were done on my husbands laptop computer and then were rewritten onto my new home computer after getting it on (07-06-07), plus this is the very first computer I have ever owned. Reason for getting it was to do research on these types of devices! To get proof that they're real and to prove that I'm not lying!

Decided to write another hand written letter to Ms. Robin Robinson, so desperate for any information of who could making these microchips! Sent July 1, 07 No reply

Wrote to Professor Kathryn Kelley Aug. 17, 07 after I found her literature on these types of microchips. She calls them RAAT implants and her explaining how they work and how people misuse or illegally. I couldn't find an address to send my letter to her, because she no longer worked at the University of UAlbany. Then wrote to her ex-husband, Professor Donn Byrne, asking him to forward my letter to her. Sent: May 9, 08 (Replied by e-mail on Nov. 08, saying he hasn't seen her or knows where she is!

To Dr. Charles Jorgensen who is with NASA. It was because of his work that resembles what these devices can do! Sent Sep. 11, 07 and then called the following week leaving a message for him to call back. No reply

To Dr. Nick Begich because he wrote about the devices. Sent the letter Oct. 1, 07 and he did write back, received his letter on Oct. 16. He didn't no any doctors in the bay area to refer me to and couldn't give out medical advice.

To Mr. David A. Larson and sent it on Oct. 26, 07 because I found out that he to is a victim. He then called me on the evening of Nov. 3, 07 to go over what I had sent him. (Please look up his writings on the web., (Criminal and Scientific Misconduct Involving Neural Prosthesis . . .) He wrote a forty-six page of the different implant devices that were in him. There are photos of these devices that were taken out of him. One reason he got these devices taken out was mainly because the area they were in finally became inflamed. A device was taken out of his nose cavity also. David was subject for "The Alfred E. Mann Foundation"

Mr. Larson and I have been corresponding and he has been giving me some advice, plus who to write to for help which will be the next five letters.

Attorney General Mukasey, U.S. Department of Justice
Inspector General Glenn Fine, U.S. D. of J.,
John Helgerson with the CIA, Central Intel.
Federal Communications Commission

All four of these letters were sent April 7, 08 and No reply

Then to the Medical Board of CA, to the Central Complaint Unit - Sent April 7, 08 -
Return letter, April 28 to say (they acknowledged my letter and would look into it.) They
are saying I'm blaming Dr. Loeb which is not the case at all!

Then on May 13, 08, a letter from Ms. Dorothy Horne with C.C.U./M.B. of CA saying (We
found no violation of the Medical Practice Act. There for my case was closed, but this
case will be on file.)

To Dr. Richard D. Fantozzi, President of the M.B. of CA - wrote to him twice
Sent April 7, 08 & May 9, 08 No Reply
To Ms. Candis Cohen - Sent May 9, 08 No reply

To George W. Breslauer, University of California, Berkeley
Executive Vice Chancellor & Provost - sent July 2, 08 No reply

To Mr. Texe and wife Wanda Marrs, Author of "Project L.U.C.I.D." because he has written
in this book of these devices.
Sent to (Living Truth Publishers) to be forwarded to them, Aug. 12, 08 No reply

These next three people I started writing to was on Aug. 14, 08, but during this time had
to prepare to have my hip surgery to be done on the 18th. Finished the letters after I had
healed enough and sent them on Oct. 31, 08

James T. Rhea, MD, MBA
University of California, San Francisco, Department of Radiology

Andrew Murr, MD, Dept. Oto - He is also in San Francisco

Stephen G. Lisberger, PhD. Department of Physiology

No reply from these three men.

Wrote another letter to them Nov. 12, 08 and mailed it the same day.

Nov. 22nd received a letter from Stephen Lisberger, but said he can not help me, because
where he is there is no clinical research unit.

I then wrote back to Dr. Lisberger asking him to please help by talking to either one or

the both of the other listed doctors. Sent Dec. 11, 08 No reply

To Cheryl Welsh, who has an organization called "Mind Justice" on Dec. 9, 08.
Sent the letter Dec. 11, 08 Received a thank you note card Dec. 17th because of sending a donation hoping for her help.

During this time of writing for help, I was still trying to find more proof of this technology for my husband John, because of his disbelief that I was a victim. I finally found the literature I needed to prove to him that I'm of course telling the truth!

On Dec. 6, 09 I Googled and found "Artificial Telepathy: Hearing Voices". John wrote a letter addressing my horrible situation with asking for help! His letter has gone to our Governor, two Senators, a few more government officials, to doctors, and Derrick Robinson, president of FFCHS.

To State Senator Joe Simitian John e-mailed his letter to the Sen. Dec. 19, 09
Palo Alto District Office, 160 Town & Country Village
Palo Alto, CA 94301
Mailed Nov. 4, 09 Have even e-mailed letters of help twice and reply with no help!

To Jesse Ventura. John e-mailed his letter to him around the same date?

To Senator Barbara Boxer John e-mailed his letter to her around the same time.
Office of U.S. Senator, 501 1 Street, Ste 7-600, Sacramento, CA 95814 -
Sent Jan. 4, 10 By E-mail & got a reply, but not with help!

To Congressman Mike Honda
District Office, 1999 S. Bascom Ave., Ste 815, Campbell, CA 95008
Sent Jan. 4, 10 Replied by letter, Jan. 8, 10. His letter says: Thank you for taking the time to write to me about your concerns, that he has taken the time to read my letter carefully and will take my views into serious consideration as he continues his work throughout the 111th Congress.
Once again, thank you for taking the time to contact me about this important matter. I am honored to represent California's 15th Congressional District. Sincerely, his name.

Jan. 10, 10. John sent his letter by e-mail to Mr. Derrick Robinson, president of "FFCH&S" and we got a letter back from him within a day or two. Mr. Robinson gave us Mr. Bruno Marchesani that lives in San Jose to help us and John called him right away and he gave us Dr. Edward Spencer, a Neurologist in Petaluma, CA. John then sent his letter to Dr. Spencer and we got a reply to come see him. Appointment was February 23, 10.

Dr. Edward Spencer then gave me a referral that day of the first appointment to have a high Tesla done and with it saying possible implant (L) ear. The situation of getting questions from the radiologists we had Dr. Spencer make us another referral. Dr. Spencer did and faxed it to my husbands company (Hillhouse Const. Co.), with it saying question foreign body left internal auditory canal region. John made a appointment with UCSF Imaging Center at China Basin. Exam. Date April 1, 10 and received the results back April 8, 10
When John made the appointment he requested the 3.0T, not realizing the referral didn't state the 3.0T and with me resulting in having the MRI done on a 1.5 Tesla. Our insurance paid for most of this leaving us to pay \$1,001.83 out of \$6,292.00. John then contacted Dr. Spencer to let him know of what happened and Dr. Spencer made me up a new referral April 27, 10 MRI 3.0Tesla, Echo Planar R/O Foreign Body.

John and I looked up where to have this next MRI to be done. We had to find a clinic that would be good and that would help us with the payment. California Pacific Med. Center There was a 40% deduct with paying in cash. Had the MRI done June 6, 10.
Paid out of pocket \$2,280.96 and to the doctor for the report \$331.60.

Report came back saying 'no abnormal tissue and normal MR appearance of the cochlea and vestibular apparatus bilaterally'.

Dr. Spencer also gave me a referral for a CT scan 64 Slice Digital Volume Tomography of the Temporal Bones, R/O Foreign Body also on April 27, 10.

(Dr. Edward Spencer retired around June 30, 2010)

To Dr. Edward Spencer - Plus, sent him the PBS Documentary (22nd Century, W.W.M.) Which included my scan and some literature. Sent Aug. 31, 10 Received a phone call back with a thank you for the Documentary, plus to let me know how important it was and that it would be going along with him to a seminar in early Oct of 2010.

To Dr. John Hall Wrote to him about my situation and sent the scan.
