Honorable Mr Patel:

I am writing to you as a member of Targeted Justice, Inc.

I am a "Non-Investigative Subject" (NIS) placed in one of the secret categories of the Terrorist Screening Database (TSDB), Handling Codes 3 and 4. I was placed on the TSDB without notice or due process, and without reasonable suspicion to meet terrorist criteria.

My placement on the TSDB turned me into a targeted individual and a victim of atrocious torture and psychological operations. Our research shows this is a CIA Unacknowledged Special Access Program (USAP), based on MK-Ultra.

The Federal Bureau of Investigation used "secret criteria" to place me on the TSDB, falsely labeling me as a "suspected terrorist." Most of us on the list are considered whistleblowers, political activists, or scientists that oppose the Deep State agenda. I have never been accused of any crime, yet I am continuously subjected to illegal surveillance, harassment and Directed Energy Weapons (DEW).

The National Academy of Sciences have reported that these attacks are real. Delta 3 of the U.S. Space Force (General Saltzman) openly admits they are operating Electromagnetic Weapons.

The constitutional rights of hundreds of thousands of Americans have been obliterated. We are depending on you.

- These microwave weapons cause a myriad of conditions - blood clots, burns, swelling, bruising, and pathologies not seen before. Watch for ulcers and wounds that do not heal.
